GREETINGS FROM

THE DIRECTOR

Since the District's adoption of our Strategic Master Plan in 2023, ongoing public engagement has guided the park district's exploration of future indoor recreation needs, which has ultimately led to the development of a concept for a new indoor community activity center. This concept includes two full-size hardwood courts for basketball, volleyball, pickleball, etc.; a multi-activity court gym for athletics, group exercise, community events, and rentals; an elevated walking/jogging track; a fitness center with cardio and strength equipment; a large multipurpose room for group exercise, dance classes, etc.; and of course locker rooms, restrooms and common areas – all directly shaped by community feedback.

Based on the survey results from the 2025 Indoor Recreation Space Feasibility Study, the proposed building would provide the ability to address identified program and amenity priorities. Potential programming includes youth and adult athletic lessons and leagues, open gym, fitness memberships, group exercise, wellness programs, dance classes, and other specialty programs. The proposed facility would replace the original Community Center at 1825 Short Street, directly north of Sea Lion Aquatic Park. This entire concept was introduced to a Citizen Task Force in early March where it received positive feedback and unanimous support to share the proposed facility with the wider community.

On page 6 of this program guide, you will see conceptual architectural renderings of the proposed site plan, floorplans, and views of the building. You can also refer to a project-specific webpage for this same information, as well as a history of the project, past community engagement initiatives, and ongoing project updates, which can be found at lisleparkdistrict.org/indoorrecreationspace.

In the coming weeks, the park district will also host three public information sessions at the Recreation Center (1925 Ohio Street): two on weekday evenings, April 21 and April 29, at 7pm, and one on Saturday, April 25, at 9am. Registered voter households will receive a tri-fold informational mailer followed by a survey, and we will continue to provide project updates at monthly meetings of the Park Board.

The park district is genuinely excited by the community's vision and enthusiasm, and we are thrilled that what has been developed so far has received positive reactions. Your feedback has brought this concept to life, and we encourage you to stay engaged, ask questions and continue to help us shape a facility designed for and inspired by our community.

This proposed facility is just one of many things occupying our time. Please take the time to explore the entirety of this program guide for tried-and-true favorites, as well as new programs and events that keep us centered to our mission to be community focused. We are proud to offer this exciting lineup, and we encourage you to find programs, events and other opportunities that inspire you and your loved ones to stay active, connected, and engaged!

Wishing you a healthy and interactive summer,

Dan Garvy, MS, CPRP

EXPLORING A POSSIBLE NEW RECREATION FACILITY IN LISLE

Explore the conceptual renderings & plans on this page for the proposed new indoor recreation facility. Stay informed by visiting our project-specific webpage.

MEZZANINE (TRACK)

The next phase of exploration focuses on concept design guided by your feedback, which includes three separate public information sessions and a public opinion survey that will be sent to registered voter households within the District. At the public information sessions, staff will walk attendees through the current proposed design and explain the separate spaces, programs & activities they can accommodate, what the overall cost & implications to taxpayers would be, and continue to collect feedback. With your input, we'll continue to refine space needs, explore programming opportunities, and develop financial impact scenarios.

WEEK 1: TINY TOWN - THINGS THAT GO!

Campers will work together to build their very own tiny town while exploring all the ways things move around us. Through building, pretend play, and lots of hands-on fun, children will imagine roads, vehicles, and community helpers as their town comes to life.

WEEK 2: ART EXPLOSION!

Get ready to create! This week is all about exploring art materials, trying new techniques, and letting imaginations run wild. Children will paint, build, and experiment with a variety of materials while focusing on the joy of creating—no “right way” required.

WEEK 3: TOY STORY ADVENTURES

Inspired by the imaginative world of *Toy Story*, campers will jump into playful adventures with Buzz, Woody, and their toy friends. Through storytelling, movement, building, and pretend play, children will explore friendship, teamwork, and big ideas — letting imagination lead every adventure.

WEEK 4: MISSION - POSSIBLE

Campers will become part of a playful problem-solving team as they complete fun missions, search for clues, and work together with friends. This week encourages curiosity, cooperation, and creative thinking through movement-based challenges and hands-on exploration.

WEEK 5: LOOSE PARTS LAB

Using everyday and found materials, children will design, build, and invent in open-ended ways. With plenty of glue, tape, and imagination, campers will explore problem-solving, creativity, and confidence as they transform simple materials into meaningful creations.

WEEK 6: NATURE EXPLORERS

Campers will spend the week exploring the natural world around them in Community Park—observing plants, insects, textures, and outdoor spaces through hands-on play. With lots of time spent outside, children will connect with nature, ask questions, and discover the joy of exploring the world around them.

WEEK 7: WATER WONDERS

Splish, Splash! It's time for water play! Campers will explore pouring, floating, splashing, and experimenting through playful water activities designed to spark curiosity and sensory exploration. This week is all about staying cool, engaged, and curious during the summer heat.!

WEEK 8: READY, SET, GROW!

This gentle, confidence-building week helps children prepare for what's next—without losing the joy of summer. Through playful learning, hands-on activities, and engaging routines, campers will strengthen important preschool skills while building independence, confidence, and excitement for the upcoming school year.

The Lisle Park District Sea Lion Swim Team competes in the West Suburban Conference with teams from Downers Grove, Hinsdale, Wheaton, and Western Springs.

The coaching staff strives to provide an atmosphere of sportsmanship and fun for both beginning and advanced swimmers. This program is primarily for children and young adults who have previously mastered swimming basics and are ready for a more competitive atmosphere. Those considering joining the Sea Lion Swim Team are strongly advised to have completed several swim lesson courses. Although this is suggested, it is not required as long as participants meet the minimum swimming requirements listed to the right.

REGISTRATION: Registration will be accepted online or in-person at the Lisle Recreation Center, Monday-Friday from 9am-5pm.

NOTES: We offer a \$15 discount per additional child from the same family. Team fee includes a swim cap and swim team t-shirt.

SWIM LESSONS - WAVE A & B

📍 Sea Lion Aquatic Park Main Pool | 1825 Short Street, Lisle

SM

WAVE A curriculum focuses on basic swim skills, water confidence, forward movement, and water safety skills. It includes Level 1 - Water Exploration, Level 2 - Primary Skills and Level 3 - Stroke Readiness. It is common for students to repeat levels in the Wave A program to master the skills in each level.

WAVE B focuses on developing your child's swimming techniques and provides the foundation needed for competitive swimming. Wave A (or its equivalent) is a prerequisite. It includes Level 4 - Stroke Development, Level 5 - Stroke Refinement and Level 6 - Stroke Proficiency. Wave B participants must be comfortable in deep water. All Wave B classes are taught in water 4 feet or deeper.

SWIM LESSON LEVEL DESCRIPTIONS:

LEVEL 1 - Water Exploration: Orientation to an aquatic environment, supported floating and kicking on front and back, alternating arm action, and basic water safety rules.

LEVEL 2 - Primary Skills: Concentration on exploring deep water, front and back glides (unsupported), and safety practices. Additional focus on back crawl (at least 5 yards), as well as the ability for the child to turn over front to back and back to front.

LEVEL 3 - Stroke Readiness: Increase swimming skill competency with a goal to swim a short distance without breaks, fundamentals of elementary backstroke, exploring deep water, introduction of dives from the side of the pool, and treading water with secondary focus on practicing safety and rescue skills.

LEVEL 4 - Stroke Development: Develop confidence and competency in strokes beyond preceding levels with a goal to swim 25 yards without breaks. Introduction of breaststroke and sidestroke, deep-water bobbing, diving from the side of pool from stride and standing positions, and turns at the wall.

LEVEL 5 - Stroke Refinement: Continue refinement of front crawl, back crawl, elementary backstroke, breaststroke and sidestroke. Introduction of butterfly and surface dives, alternate breathing, swimming under water, and open turns on front and back. Swimming distance is further increased from Level 4.

LEVEL 6 - Stroke Proficiency: Develop maximum efficiency and endurance for strokes, flip turns, tuck and pike surface dives, alternative kicks for treading water, as well as introduction to approach stroke & throwing rescues. Swimmers should be ready for competitive swimming after the completion of this level.

Vinyasa flow yoga emphasizes the sequential movement between poses, coordinated with guided breath. The vinyasa practice becomes a moving meditation that creates strength, freedom and fluidity in the body and mind.

In this class, the focus is on breathing and correct alignment as you flow from one pose to another. This will help strengthen the core, promote flexibility in the body and improve overall cardiovascular fitness. There is an emphasis on advancing gradually and each yogi is encouraged to modify by listening to their body. Emphasis is on simplicity, repetition, and ease of movement. Classes are designed for all levels.

NOTE: Please bring a mat to class.

STRENGTH & BONE DENSITY

Lisle Recreation Center, Athletic Space | 1925 Ohio St., Lisle

ZP

There is scientific evidence that shows the benefits of weight bearing exercise on bone density. We reach peak bone density in our twenties and begin to lose it in our thirties. This is especially true without proper exercise and diet and with a family history of osteoporosis. This class takes you through a wide variety of weight bearing exercises and balance training using hand weights, resistance bands, and exercise balls to help you stay strong, agile, and healthy.

Roald Dahl's *Willy Wonka Jr.* follows enigmatic candy manufacturer Willy Wonka as he stages a contest by hiding golden tickets in five of his scrumptious candy bars. Whomever comes up with these tickets will win a free tour of the Wonka factory, as well as a lifetime supply of candy. Four of the five winning children are insufferable brats, but the fifth is a likeable young lad named Charlie Bucket, who takes the tour in the company of his equally amiable grandfather. At Gentle Learning Preschool, play is at the heart of everything we do.

Our classrooms are designed with inviting, hands-on centers that spark curiosity, creativity, and confidence in every child. Through play and exploration, our students learn about their world: touching, talking, experimenting, building, and imagining every step of the way.

Each day is filled with opportunities to build curiosity and confidence. We count while we sing, write while we draw, and explore early science through mixing, cooking, and discovering how things work. Sensory play invites children to scoop, pour, and compare, while art experiences encourage them to express their ideas through color, texture, and design.

Building with blocks, molding play dough, and creating with manipulatives strengthen the fine motor muscles needed for future writing, while dramatic play invites big imagination and teamwork. And every day, our children run, climb, pedal, jump, and laugh on our playground or in our motor room, building strong bodies and joyful hearts.

At Gentle Learning, childhood is celebrated, curiosity is encouraged, and learning feels like play, because that's exactly what it is!

2026-2027 PRESCHOOL CLASSES

📍 Gentle Learning Preschool | 1925 Ohio Street, Lisle

33

At Gentle Learning Preschool, children learn through play and discovery. Our classrooms are filled with engaging centers that invite children to explore, create, and connect. Each day offers opportunities to build curiosity, confidence, and friendships through meaningful, hands-on experiences.

Our curriculum weaves early literacy, math, science, art, and motor development into activities that feel joyful and natural. Children measure and mix while cooking, express ideas through art and dramatic play, and build coordination through movement indoors and out.

Preschool is more than preparation for what comes next – it’s a stage of learning all its own. At Gentle Learning, children are known, supported, and inspired to grow into curious, capable, and confident learners.

REQUIREMENTS: Children must be 3 or 4 years old by Sept. 1, 2026 in order to enroll. We strongly encourage children to be potty-trained before entering our preschool program.

CLASS & TEACHER PLACEMENT: Your child’s specific teacher will be assigned in late July before the school year begins. Parents will receive this information via email.

REGISTRATION & PROGRAM FIT: Our program is designed to support a wide range of learners; however, continued enrollment is based on our ability to meet each child’s developmental and safety needs within our classroom environment. We may partner with families to explore additional supports or alternative placements if a child’s needs extend beyond what we are able to provide.

CLUB THEMES

Each afternoon following preschool class, we will immerse ourselves in one of our club themes: Book Club, STEM Learning Club, Art with Anything, Kids in the Kitchen, and Fun & Games. Each club description is below. Club theme days will rotate each week so that children who don't stay everyday can participate in a variety of activities.

GENTLE LEARNING BOOK CLUB

Book clubs aren't just for grownups! We've thoughtfully selected wonderful preschool stories (new and classics) to read and discuss each afternoon. Then, we will create something special together.

STEM LEARNING CLUB

S is for Science, T is for Technology, E is for Engineering and M is for math. Our teachers will weave carefully planned activities into these afternoons that will foster a love of discovery, building, problem solving, critical thinking, observing and science!

KIDS IN THE KITCHEN*

There is nothing more fun than helping children discover a love of cooking. Your preschooler will learn to safely chop, roll, grate, pat, mix, and spread. We will experience cooking using all 5 senses (especially taste) as we enjoy food that we make together. Our little chefs will even bring home the recipes from each day to recreate at home!

***Please make us aware of any food allergies ahead of time so that we can modify accordingly.**

ART WITH ANYTHING

Each art afternoon we will make projects using everyday objects! Little artists will explore the process of creating unique art in compelling and creative ways! We'll use "out of the ordinary" art methods like spinning, blowing, smushing, tapping, and brushing. Our materials will be varied as well to include buttons, cardboard, hole punches, tape, and glue, magnets, spatulas, bike tires, bubble wrap and more! Please note that there are not assigned projects per date. We want to keep our imaginations open to creativity and children's interests each week!

FUN & GAMES

It really IS all Fun and Games in preschool. These afternoons will be full of movement and thinking. We'll do lots of big body movement games as well as learn some brand new board games.

SUMMER CLUB THEMES

Each afternoon following summer camp, we will spend lots of time playing inside and outside. We'll do arts and crafts, STEM activities, read some books, and enjoy being together.

We have developed a world-class curriculum that enables all participants to achieve their goals, whether that is to simply learn to ice skate for fun or to become a hockey player/figure skater. Our instructional staff are trained professionals with a passion for ice sports. They provide beginners an environment to succeed while keeping each class fun.

PARENT/TOT: This class is a great way to introduce your tot to the ice while being able to skate with them! They will learn to stand and support themselves on the ice, fall down and get back up, and skate through fun games and activities. An adult is required to participate.

TOTS: This is an introductory class designed for children ages 4 -5 with no prior skating experience to build confidence while learning the basic skills of skating. These classes are designed to help children develop the ABCs of movement – agility, balance, coordination, and speed.

BASIC: The basic skills levels teach the fundamentals of skating and provide the best foundation for figure skating and hockey. Skaters will learn and master forward and backward skating, stops, edges, crossovers, and turns. These levels are essential for skaters to advance to spins and jumps.

TEEN/ADULT: Our teen/adult basics class is “at your own pace” and is perfect for beginners, continuing adult skaters, or skaters who are returning to the ice after years of hiatus.

EQUIPMENT: Skates are required. Warm clothing is recommended. Skates can be rented at the ice rink for \$4 or purchase a punch card for 11 rentals for \$40.

If you're seeking more competition without the time and commitment of a travel soccer program, consider joining the Classic Soccer League. The Classic Soccer League is a step up from traditional park district leagues and it's geared toward players who want a bit more structure and competition. However, while it is a competitive league, the league's primary objective is to provide a fun, safe, competitive environment for young players to learn.

GAMES

- Some games may be played outside of Lisle or after hours on weekdays
- Teams will generally be placed in brackets in their own age group or age range
- Game formats and rules are age-group specific. For example, a kindergartener will play by less complex rules and with fewer players on a smaller field than a 6th grader
- 7-9 week season concludes with playoffs & championship at each division

PRACTICES

Classic Soccer League teams practice at least once per week throughout the season and are led by volunteer coaches. The exact weekday and start time of practices is dependent on the availability of the volunteer coach.

WHO CAN REGISTER

Players in Preschool - 8th grade
Beginners through advanced
Individual players

Whole Teams

- Schoolmates & friends may be grouped to form school-specific or neighborhood-specific teams
 - Groups that register "as a team" need to identify a head coach and or coaching team
 - Maximum and minimum roster sizes apply
 - Teams may remain together year to year too
- Players are encouraged to remain on the same team for both the fall and spring seasons. This promotes player cohesiveness and team continuity. Players who use their league issued, team-specific uniform for the entire year will benefit from a reduced fee.

ADA ACCOMMODATIONS

FOR LISLE PARK DISTRICT PROGRAMS

The Lisle Park District welcomes and supports the participation of individuals with special needs in all programs, activities and services. By) date for that program. Cancellations made after the register by (Reg. By) date are subject to a \$5 service fee, plus any costs incurred by the park district. Cancellations made with less than a 24-hour notice will not be able to receive a refund.
